SUMMARY

Python Developer with hands-on experience in building scalable web applications using **Python, Django, and Django REST Framework**. Skilled in developing secure RESTful APIs, database design and management with **SQL and PostgreSQL**, and creating responsive user interfaces using **HTML, CSS, and JavaScript**. Experienced in backend development, debugging, performance optimization, and building maintainable web applications following industry best practices.

EXPERIENCE

QTN GLOBAL SERVICES PVT. LTD.

Role - Python Developer

December 2025 – Present

- Developing and maintaining web applications using **Python, Django, and Django REST Framework**.
- Designing and implementing **RESTful APIs**, handling authentication, authorization, and backend business logic.
- Managing and optimizing databases using **SQL and PostgreSQL**, including query optimization and data modeling.
- Collaborating with cross-functional teams to develop, test, debug, and deploy scalable web applications while ensuring code quality and performance.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, C

Web Technologies: HTML, CSS

Frameworks: Django, REST Framework

Databases: MySQL, PostgreSQL

Tools and Platforms: Git, GitHub, Postman, Render

PROJECTS

Faculty Management System — (React.js, Tailwind CSS, Django, SQLite)

2026

- Developed a **Faculty Management System** to streamline faculty operations, lecture management, and academic reporting.
- Built a responsive frontend using **React.js** and **Tailwind CSS** for dashboard and user interaction.
- Implemented backend using **Django** for handling faculty records, attendance, and report management.
- Used **SQLite** for database management and efficient data storage during development.

Medical College Website — (React.js, Tailwind CSS, Django, SQLite)

2026

- Developed a dynamic medical college website with modules for admissions, courses, faculty details, and announcements.
- Designed responsive UI using **React.js** and **Tailwind CSS** for better user experience.
- Built backend using **Django** for content management, inquiries, and admin functionality.
- Used **SQLite** for database storage and structured data management.

Blog Management System — (HTML, CSS, Django, SQLite)

2026

- Built a blog platform allowing users to create, edit, and manage blog posts efficiently.
- Designed UI using **HTML** and **CSS** for a simple and responsive interface.
- Implemented authentication and CRUD operations using **Django**.
- Used **SQLite** for storing blog posts and user data.

EDUCATION

University of Technology

Bachelor of Computer Applications (BCA) - CGPA: 7.31

2023 – 2026

Jaipur, Rajasthan
